

# THE BLUE CROSS BLUE SHIELD NETWORK

The L3Harris medical plans are provided by Blue Cross Blue Shield. To review the Blue Cross Blue Shield network, visit [myhealthtoolkitfl.com](https://myhealthtoolkitfl.com). Choose *Find Care*, then follow the prompts and use the assigned alpha prefix shown below to search for in-network providers in your state.

STATE OF RESIDENCE	ALPHA PREFIX
<b>Any state not listed below</b>	HFD
<b>District of Columbia (DC)</b>	HAC
<b>Georgia</b>	HGB
<b>Maryland</b>	HAC
<b>New Hampshire</b>	HAN
<b>New Jersey</b>	HNB
<b>Oklahoma</b>	HKX
<b>Virginia</b>	HAC
<b>Utah (see below)</b> » HDHP 1 and HDHP 2 Intermountain Only » HDHP 1, HDHP 2 and THP (Non-Intermountain Network)	HUA HFD

## Utah Employees Have a Choice of Networks

There are two network options in Utah:

- » **HDHP 1 and HDHP 2 Intermountain Only:** These plans use the Preferred Blue Option network, which is comprised primarily of Intermountain providers. Most non-Intermountain providers are considered out-of-network when you receive care in Utah. (If you receive care outside of Utah, you can see non-Intermountain providers.) Use the alpha prefix **HUA** to search this network.
- » **HDHP 1, HDHP 2 and THP (non-Intermountain network):** These plans use the BlueCard PPO network, which provides access to the standard BCBS network in Utah but excludes all Intermountain providers. Use the alpha prefix **HFD** to search this network.

There are no coverage or cost differences between the Intermountain Only and non-Intermountain plans; the only difference is the network.
